

My Shadow

0526CH03

Do you know whenever there is light someone follows you? Have you ever wondered who it is?

Read and Enjoy

I have a little shadow that goes
in and out with me.
And what can be the use of him is
more than I can see.
He is very, very like me from the
heels up to the head;
And I see him jump before me,
When I jump into my bed.

One morning, very early, before the
sun I was up,
I rose and found the shining dew
on every buttercup;
But my lazy little shadow, like an
arrant sleepyhead,
Had stayed at home behind me and was
Fast asleep in bed.

ROBERT LOUIS STEVENSON

Robinson Crusoe

Discovers a Footprint

*Robinson Crusoe's ship had been destroyed by the sea.
He had been alone for many years and longed for
company. One day he discovers a footprint on the sand.
Let's find out what he did then.*

One day, when I was going towards my boat, I was surprised to see the footprint of a man on the sand. I stood amazed! I listened; I looked around me; I could neither hear nor see anything. I went up higher to look down; I went up the shore and down the shore, but it was no good; I could find no other footprint but that one. I went to it again to see if there were any more footprints and to tell if it had been my imagination. But I was not mistaken, for there was exactly the print of a foot — toes, heel, every part of a foot. I could not imagine how it came there.

I stayed a long time thinking, but became more and more confused.

At last I returned home very frightened, looking behind me after every two or three steps, mistaking every bush and tree to be a man.

When I came to my cave (which I called my castle), I ran inside it, as if I was being chased. I do not remember whether I used the ladder or went in by the hole in the

rock, which I called the door. I ran for cover, faster than any animal could run.

I did not sleep that night. The more I thought about what I had seen, the more afraid I became. I thought it could be one of the savages of the mainland who had wandered out to the sea, in a small boat.

Luckily I was not on shore at that time, but what if he had seen my boat! If he had seen the boat he would have realised that someone lived on the island and would soon return with others to kill and eat me.

And so I lay fearful for many days and prayed for protection. In doing so, I was much comforted and began going out to investigate. But even now as I went forward, I looked behind me frequently, because I was still very frightened.

However, as I went about for two or three days and saw nothing I became a little bolder. I decided to go down to the shore again and examine the footprint once more. I decided to measure it with my own footmark.

As I came closer to the footprint, I realised that it could not be my footprint because I had not come to this part of the beach since a long time. Secondly, as I placed my foot alongside that footprint, it seemed larger than my own.

My fear returned! I went home again, believing that there was someone there.

The island was inhabited!

(Adapted from Daniel Defoe's *Robinson Crusoe*)

THEMES

Investigating the unknown
Suspense and sense of curiosity
Overcoming fears by scientific analysis

READING TIME

A classroom library reading programme would provide for reading tastes, interests and abilities of all children. The teacher should ask the children to read the original story, *Robinson Crusoe* by Daniel Defoe. They could also read other books on adventure, stories of family life, humour, mystery, animals stories and stories of people, and talk about what they have read. The exceptional qualities one finds in adventurers can be discussed in class.

CONVERSATION TIME

Take the children outdoors to see the shadows of trees and the school building. Help them understand the absence of shadows on a cloudy day. The teacher should explain the shortening and lengthening of shadows through the day.

Since this unit is about our fears, the children could be asked to express some of their fears, also their unreasonable fears. They can discuss how best to deal with these fears.

WRITING TIME

The two creative writing exercises have leading questions to guide the children. These exercises will stimulate their imagination.

PROJECT WORK

Find out how ships and planes are guided towards land? The children should consult the encyclopedia and share their answers with the class. To cultivate a taste for reading, one period a week can be devoted to using the library. Books appropriate to the age group can be chosen for individual reading. Children can be asked to write about the book they have read during the language class or share a story with their classmates.
