

11110CH03

Recording of Transactions-I

3

LEARNING OBJECTIVES

After studying this chapter, you will be able to:

- describe the nature of transaction and source documents;
- explain the preparation of accounting vouchers;
- apply accounting equation to explain the effect of transactions;
- record transactions using rules of debit and credit;
- explain the concept of book of original entry and recording of transactions in journal;
- explain the concept of ledger and posting of journal entries to the ledger accounts.

In chapter 1 and 2, while explaining the development and importance of accounting as a source of disseminating the financial information along with the discussion on basic accounting concepts that guide the recording of business transactions, it has been indicated that accounting involves a process of identifying and analysing the business transactions, recording them, classifying and summarising their effects and finally communicating it to the interested users of accounting information.

In this chapter, we will discuss the details of each step involved in the accounting process. The first step involves identifying the transactions to be recorded and preparing the source documents which are in turn recorded in the basic book of original entry called journal and are then posted to individual accounts in the principal book called ledger.

3.1 Business Transactions and Source Document

After securing good percentage in your previous examination, as promised, your father wishes to buy you a computer. You go to the market along with your father to buy a computer. The dealer gives a *cash memo* along with the computer and in exchange your father makes cash payment of ₹ 35,000. Purchase of computer for cash is an example of a *transaction*, which involves reciprocal exchange of two things: (i) *payment of cash*, (ii) *delivery of a computer*. Hence, the transaction

involves this aspect, i.e. *Give* and *Take*. Payment of cash involves *give* aspect and delivery of computer is a *take* aspect. Thus, business transactions are exchanges of economic consideration between parties and have two-fold effects that are recorded in at least two accounts.

Business transactions are usually evidenced by an appropriate documents such as Cash memo, Invoice, Sales bill, Pay-in-slip, Cheque, Salary slip, etc. A document which provides evidence of the transactions is called the *Source Document or a Voucher*. At times, there may be no documentary for certain items as in case of petty expenses. In such case voucher may be prepared showing the necessary details and got approved by appropriate authority within the firm. All such documents (vouchers) are arranged in chronological order and are serially numbered and kept in a separate file. All recording in books of account is done on the basis of vouchers.

Transaction Voucher	
Name of Firm :	
Voucher No	:
Date	:

3.1.1 Preparation of Accounting Vouchers

Accounting vouchers may be classified as cash vouchers, debit vouchers, credit vouchers, journal vouchers, etc. There is no set format of accounting vouchers. A specimen of a simple transaction voucher is used in practice is shown in figure 3.1.

These must be preserved in any case till the audit of the accounts and tax assessments for the relevant period are completed. Now a days, accounting is computerised and the necessary accounting vouchers showing the code number and name of the accounts to be debited and credited are prepared for the purpose of necessary recording of transactions. A transaction with one debit and one credit is a simple transaction and the accounting vouchers prepared for such transaction is known as *Transaction Voucher*, the format of

which is shown in figure 3.1. Voucher which records a transaction that entails multiple debits/credits and one credit/debit is called compound voucher. Compound voucher may be: (a) *Debit Voucher* or (b) *Credit Voucher*; the specimen is shown in figure 3.2.

Debit Voucher

Fig. 3.2 : Showing debit and credit vouchers

Transactions with multiple *debits* and multiple *credits* are called complex transactions and the accounting voucher prepared for such transaction is known as *Complex Voucher/ Journal Voucher*. The format of a complex transaction voucher is shown in figure 3.3.

Journal Voucher

Fig. 3.3 : Showing specimen of complex transaction voucher

The design of the accounting vouchers depends upon the nature, requirement and convenience of the business. There is no set format of an accounting voucher. To distinguish various vouchers, different colour papers and different fonts of printing are used. Some of the specimen of the accounting vouchers are given in the earlier pages. An accounting voucher must contain the following essential elements :

- It is written on a good quality paper;
- Name of the firm must be printed on the top;
- Date of transaction is filled up against the date and not the date of recording of transaction is to be mentioned;
- The number of the voucher is to be in a serial order;
- Name of the account to be debited or credited is mentioned;

- Debit and credit amount is to be written in figures against the amount;
- Description of the transaction is to be given account wise;
- The person who prepares the voucher must mention his name along with signature; and
- The name and signature of the authorised person are mentioned on the voucher.

3.2 Accounting Equation

Accounting equation signifies that the assets of a business are always equal to the total of its liabilities and capital (*owner's equity*). The equation reads as follows:

$$A = L + C$$

Where,

A = Assets

L = Liabilities

C = Capital

The above equation can also be presented in the following forms as its derivatives to enable the determination of missing figures of Capital(C) or Liabilities(L).

(i) $A - L = C$

(ii) $A - C = L$

Since, the accounting equation depicts the fundamental relationship among the components of the balance sheet, it is also called the Balance Sheet Equation. As the name suggests, the balance sheet is a statement of assets, liabilities and capital.

At any point of time resources of the business entity must be equal to the claims of those who have financed these resources. The proprietors and outsiders provide the resources of the business. The claim of the proprietors is called *capital* and that of the outsiders is known as *liabilities*. Each element of the equation is the part of balance sheet, which states the financial position of the business on a particular date. When we analyse the transactions, we actually try to know that how balance sheet of a business entity gets affected.

Asset side of the balance sheet is the list of assets, which the business entity owns. The liabilities side of the balance sheet is the list of owner's claims and outsider's claims, i.e., what the business entity owes. The equality of the assets side and the liabilities side of the balance sheet is an undeniable fact and this justifies the name of accounting equation as balance sheet equation also.

For example, Rohit started business with a capital of ₹ 5,00,000. From the accounting point of view, the resources of this business entity is in the form of cash, i.e., ₹ 5,00,000. Sources of this business entity is the contribution by Rohit (Proprietor) ₹ 5,00,000 as Capital .

(For the purpose of understanding we will refer this example as example 1, throughout the chapter) .

If we put this information in the form of equality of resources and sources, the picture would emerge somewhat as follows:

Books of Rohit
Balance Sheet as at

<i>Liabilities</i>	<i>Amount ₹</i>	<i>Assets</i>	<i>Amount ₹</i>
Capital	5,00,000	Cash in hand	5,00,000
	5,00,000		5,00,000

In the above balance sheet, the total assets are equal to the liabilities of the business. Since, the business has not yet started its activities and has not earned any profits; the amount invested in business is still ₹ 5,00,000. In case any profits are earned, it will increase the invested amount in business. On the other hand, if business suffers any losses, it will decrease the invested amount in business.

We will now analyse the transactions listed in example 1 and its effect on different elements and you will observe that the accounting equation always remain balanced:

Example 1.

1. Opened a bank account in State Bank of India with an amount of ₹ 4,80,000.

Analysis of transaction: This transaction increases the cash at bank (assets) and decreases cash (asset) by ₹ 4,80,000.

2. Bought furniture for ₹ 60,000 and cheque was issued on the same day.

Analysis of transaction: This transaction increases furniture (assets) and decreases bank (assets) by ₹ 60,000.

3. Bought plant and machinery for the business for ₹ 1,25,000 and an advance of ₹ 10,000 in cash is paid to M/s Ramjee Lal.

Analysis of transaction: This transaction increases plant and machinery (assets) by ₹ 1,25,000, decreases cash by ₹ 10,000 and increases liabilities (M/s Ramjee Lal as creditor) by ₹ 1,15,000.

4. Goods purchased from M/s Sumit Traders for ₹ 55,000.
Analysis of transaction: This transaction increases goods (assets) and increases liabilities (M/s Sumit Traders as creditors) by ₹ 55,000.
5. Goods costing ₹ 25,000 sold to Rajani Enterprises for ₹ 35,000.
Analysis of transaction: This transaction decreases stock of goods (assets) by ₹ 25,000 and increases assets (Rajani Enterprises as debtors ₹ 35,000) and capital (with the profit of ₹ 10,000)

The final equation as per the above analysis table can be summarised in the form of a balance sheet as under:

Balance Sheet as at.....2017

<i>Liabilities</i>	<i>Amount ₹</i>	<i>Assets</i>	<i>Amount ₹</i>
Outsider's Claims (Creditors)	1,70,000	Cash	10,000
Capital	5,10,000	Bank	4,20,000
		Debtors	35,000
		Stock	30,000
		Furniture	60,000
		Plant & Machinery	1,25,000
	<u>6,80,000</u>		<u>6,80,000</u>

In terms of accounting equation

$$A = L + C$$

$$₹ 6,80,000 = ₹ 1,70,000 + ₹ 5,10,000$$

3.3 Using Debit and Credit

As already stated every transaction involves give and take aspect. In double entry accounting, every transaction affects and is recorded in at least two accounts. When recording each transaction, the *total amount debited must equal to the total amount credited*. In accounting, the terms — *debit* and *credit* indicate whether the transactions are to be recorded on the left hand side or right hand side of the account. In its simplest form, an account looks like the letter **T**. Because of its shape, this simple form called a T-account (refer figure 3.4). Notice that the T format has a left side and a right side for recording increases and decreases in the item. This helps in ascertaining the ultimate position of each item at the end of an accounting period. For example, if it is an account of a customer all goods sold shall appear on the left (debit) side of customer's account and all payments received on the right side. The difference between the totals of the two sides called *balance* shall reflect the amount due to the customer. In a **T** account, the left side is called *debit* (often abbreviated as Dr.) and the right side is known as *credit* (often abbreviated as Cr.). To

The summary of effects of transactions on accounting equation is in the following analysis table:

(Figures in rupees)

Transaction No.	Cash	Bank	Assets Debtors	Goods (Stock)	Furniture	Plant and Machinery	Total Assets	Liabilities	Capital	Total
	5,00,000						5,00,000	5,00,000	5,00,000
1. Post Trans. Equation	(4,80,000) 20,000	4,80,000 4,80,000				 5,00,000	 5,00,000 5,00,000
2. Post Trans. Equation 20,000	(60,000) 4,20,000			60,000 60,000	 5,00,000	 5,00,000 5,00,000
3. Post Trans. Equation	(10,000) 10,000	4,20,000			60,000	1,25,000 1,25,000	1,15,000 6,15,000	1,15,000 1,15,000	5,00,000	1,15,000 6,15,000
4. Post Trans. Equation	10,000	4,20,000		55,000 55,000	60,000	1,25,000	55,000 6,70,000	55,000 1,70,000	5,00,000	55,000 6,70,000
5. Post Trans. Equation			35,000	(25,000)			10,000		10,000	10,000
Final Equation	10,000	4,20,000	35,000	30,000	60,000	1,25,000	6,80,000	1,70,000	5,10,000	6,80,000

enter amount on the left side of an account is to *debit* the account. To enter amount on the right side is to *credit* the account.

Fig. 3.4 : Showing T-account

3.3.1 Rules of Debit and Credit

All accounts are divided into five categories for the purposes of recording the transactions: (a) Asset (b) Liability (c) Capital (d) Expenses/Losses, and (e) Revenues/Gains.

Two fundamental rules are followed to record the changes in these accounts:

- (1) *For recording changes in Assets/Expenses (Losses):*
 - (i) “Increase in asset is debited, and *decrease* in asset is credited.”
 - (ii) “Increase in expenses/losses is debited, and *decrease* in expenses/losses is credited.”
- (2) *For recording changes in Liabilities and Capital/Revenues (Gains):*
 - (i) “*Increase* in liabilities is credited and *decrease* in liabilities is debited.”
 - (ii) “*Increase* in capital is credited and *decrease* in capital is debited.”
 - (iii) “*Increase* in revenue/gain is credited and *decrease* in revenue/gain is debited.”

The rules applicable to the different kinds of accounts have been summarised in the following chart:

Rules of Debit and Credit			
Asset		Liabilities	
(Increase) + Debit	(Decrease) - Credit	(Decrease) - Debit	(Increase) + Credit
Capital		Expenses/Losses	
(Decrease) - Debit	(Increase) + Credit	(Increase) + Debit	(Decrease) - Credit
Revenues/Gains			
(Decrease) - Debit	(Increase) + Credit		

The transactions in Example 1 on page 46 will help you to learn how to apply these debit and credit rules. Observe the analysis table given on page 48 carefully to be sure that you understand before you go on to the next one. To illustrate different kinds of events, three more transactions have been added (transactions 7 to 9).

1. Rohit started business with cash ₹ 5,00,000

Analysis of Transaction : The transaction increases cash on one hand and increases capital on the other hand. Increases in assets are debited and increases in capital are credited. Therefore record the transaction with debit to Cash and credit to Rohit's Capital.

Cash Account		Capital Account	
(1) 5,00,000			(1) 5,00,000
			(6) 10,000

2. Opened a bank account with an amount of ₹ 4,80,000

Analysis of Transaction: The transaction increases the cash at bank on one hand and decreases cash in hand on the other hand. Increases in assets are debited and a decreases in assets are credited. Therefore, record the transactions with debit to Bank account and credit to Cash account.

Cash Account		Bank Account	
(1) 5,00,000	(2) 4,80,000	(2) 4,80,000	

3. Bought furniture for ₹ 60,000 and issued cheque for the same

Analysis of Transaction : This transaction increases furniture (assets) on one hand and decreases bank (assets) on the other hand by ₹ 60,000. Increases in assets are debited and decreases are credited. Therefore record the transactions with debit to Furniture account and credit to Bank account.

Furniture Account		Bank Account	
(1) 60,000		(2) 4,80,000	(3) 60,000

4. Bought Plant and Machinery from Ramjee lal for the business for - ₹ 1,25,000 and an advance of ₹ 10,000 in cash is given.

Analysis of Transaction : This transaction increases plant and machinery (assets) by ₹ 1,25,000, decreases cash by ₹ 10,000 and increases liabilities (M/s Ramjee Lal as creditor) by ₹ 1,15,000. Increases in assets are debited whereas decreases in assets are credited. On the other hand increases in liabilities are credited. Therefore, record the transaction with debit to furniture account and with credit to Cash and Ramjee Lal's account.

Cash Account		Plant and Machinery Account	
(1) 5,00,000	(2) 4,80,000	(4) 1,25,000	
	(4) 10,000		

Ramjee Lal's Account	
	(4) 1,15,000

5. Goods purchased from Sumit Traders for ₹ 55,000

Analysis of transaction : This transaction increases purchases (expenses) and increases liabilities (M/s Sumit Traders as creditors) by ₹ 55,000. Increases in expenses are debited and increases in liabilities are credited. Therefore record the transaction with debit to Purchases account and credit to Sumit Traders account.

Purchases Account		Sumit Traders Account	
(5) 55,000			(5) 55,000

6. Goods costing ₹ 25,000 sold to Rajani Enterprises for ₹ 35,000

Analysis of transaction : This transaction increases sales (Revenue) and increases assets (Rajani Enterprises as debtors). Increases in assets are debited and increases in revenue are credited. Therefore record the entry with credit to Sales account and debit to Rajani Enterprises account.

Sales Account		Rajani Enterprises Account	
	(6) 35,000	(6) 35,000	

7. Paid the monthly store rent ₹ 2,500 in cash

Analysis of transaction : The payment of rent is an expense which decreases capital thus, are recorded as debits. Credit cash to record decrease in assets.

Rent Account		Cash Account	
(7) 2,500		(7) 5,00,000	(2) 4,80,000
			(4) 10,000
			(7) 2,500

8. Paid ₹ 5,000 as salary to the office employees

Analysis of transaction : The payment of salary is an expense which decreases capital thus, are recorded as debits. Credit Cash to record decrease in assets.

Salary Account		Cash Account	
(8) 5,000		(1) 5,00,000	(2) 4,80,000
			(4) 10,000
			(7) 2,500
			(8) 5,000

9. Received cheque as full payment from Rajani Enterprises and deposited same day into bank

Analysis of transaction : This transaction increase assets (Bank) on the one hand and decreases assets (Rajani Enterprises as debtors) on the other hand. Increase in assets is debited whereas decrease in assets is credited. Therefore record the entry with debit to Bank account and credit to Rajani Enterprises account.

Rajani Enterprises Account		Bank's Account	
(6) 35,000	(9) 35,000	(2) 4,80,000	(3) 60,000
		(9) 35,000	

Test Your Understanding - I

- Double entry accounting requires that :
 - All transactions that create debits to asset accounts must create credits to liability or capital accounts;
 - A transaction that requires a debit to a liability account require a credit to an asset account;
 - Every transaction must be recorded with equal debits equal total credits.
- State different kinds of transactions that increase and decrease capital.
- Does debit always mean increase and credit always mean decrease?
- Which of the following answers properly classifies these commonly used accounts: (1) Building (2) Wages (3) Credit sales (4) Credit purchases (5) Electricity charges due but not yet paid (outstanding electricity bills) (6) Godown rent paid in advance (prepaid godown rent) (7) Sales (8) Fresh capital introduced (9) Drawings (10) Discount paid

	Assets	Liabilities	Capital	Revenue	Expense
(i)	5,4,	3,	9,6	2,10	8,7
(ii)	1, 6	4, 5	8	7, 3	2,9,10
(iii)	2, 10,4	4,6	8	7,5	1,3,9

Illustration 1

Analyse the effect of each transaction on assets and liabilities and show that the both sides of Accounting Equation ($A = L + C$) remains equal :

- Introduced ₹ 8,00,000 as cash and ₹ 50,000 by stock.

- (ii) Purchased plant for ₹ 3,00,000 by paying ₹ 15,000 in cash and balance at a later date.
- (iii) Deposited ₹ 6,00,000 into the bank.
- (iv) Purchased office furniture for ₹ 1,00,000 and made payment by cheque.
- (v) Purchased goods worth ₹ 80,000 for cash and for ₹ 35,000 in credit.
- (vi) Goods amounting to ₹ 45,000 was sold for ₹ 60,000 on cash basis.
- (vii) Goods costing to ₹ 80,000 was sold for ₹ 1,25,000 on credit.
- (viii) Cheque issued to the supplier of goods worth ₹ 35,000.
- (ix) Cheque received from customer amounting to ₹ 75,000.
- (x) Withdrawn by owner for personal use ₹ 25,000.

Solution

Transaction (i) It affects Cash and Inventory on the assets side and Capital on the other hand. There is increase in cash by ₹ 8, 00,000 and Inventory of goods by ₹ 50,000 on assets side of the equation. Capital is increased by ₹ 8, 50,000.

Assets		=	Liabilities + Capital
Cash	+ Inventory (Stock)	=	
8,00,000	+ 50,000	=	8,50,000
Total	8,50,000	=	8,50,000

Transaction (ii) It affects Cash and Plant and Machinery on the assets side and liabilities on the other side of the equation. There is an increase in plant and machinery by ₹ 3, 00,000 and decrease in cash by ₹ 15,000. Liability to pay to the supplier of plant and machinery increases by ₹ 2,85,000.

Assets		=	Liabilities + Capital
Cash	+ Inventory + Plant and Machinery	=	
8,00,000	+ 50,000	=	8,50,000
(15,000)	3,00,000	=	2,85,000
7,85,000	+ 50,000 + 3,00,000	=	2,85,000 + 8,50,000
Total	11,35,000	=	11,35,000

Transaction (iii) It affects assets side only. The composition of the asset side changes. Cash decreases by ₹ 6,00,000 and by the same amount bank increases.

Assets		=	Liabilities + Capital
Cash	+ Inventory + Plant and Machinery + Bank	=	
7,85,000	+ 50,000 + 3,00,000	=	2,85,000 + 8,50,000
(6,00,000)	+ 6,00,000	=	2,85,000 + 8,50,000
1,85,000	+ 50,000 + 3,00,000 + 6,00,000	=	2,85,000 + 8,50,000
Total	11,35,000	=	11,35,000

Transaction (iv) It affects assets side only. The composition of the asset side changes. Furniture increases by ₹ 1,00,000 and by the same amount bank decreases.

Assets					= Liabilities + Capital
Cash	+ Inventory	+ Plant and Machinery		+ Bank	+ Furniture
1,85,000	+ 50,000	+ 3,00,000	+ 6,00,000		
			(1,00,000)		+ 1,00,000
1,85,000	+ 50,000	+ 3,00,000	+ 5,00,000	+ 1,00,000	= 2,85,000 + 8,50,000
Total	11,35,000				= 11,35,000

Transaction (v) It affects Cash and Inventory on the assets side and liability on the other side. There is decrease in cash by ₹ 80,000 and increase of inventory of goods by ₹ 1,15,000 on the assets side of the equation. Liabilities increases by ₹ 35,000.

Assets					= Liabilities + Capital
Cash	+ Inventory	+ Plant and Machinery		+ Bank	+ Furniture
1,85,000	+ 50,000	+ 3,00,000	+ 5,00,000	+ 1,00,000	
(80,000)	+ 1,15,000				
1,05,000	+ 1,65,000	+ 3,00,000	+ 5,00,000	+ 1,00,000	= 2,85,000 + 8,50,000
					= 35,000
					= 3,20,000 + 8,50,000
Total	11,70,000				= 11,70,000

Transaction (vi) It affects Cash and Inventory on the assets side and capital on the other side. There is an increase in cash by ₹ 60,000 and decrease in inventory of goods by ₹ 45,000 on the assets side of the equation. Capital increases by ₹ 15,000.

Assets					= Liabilities + Capital
Cash	+ Inventory	+ Plant and Machinery		+ Bank	+ Furniture
1,05,000	+ 1,65,000	+ 3,00,000	+ 5,00,000	+ 1,00,000	
60,000	+ (45,000)				
1,65,000	+ 1,20,000	+ 3,00,000	+ 5,00,000	+ 1,00,000	= 3,20,000 + 8,50,000
					+ 15,000
					= 3,20,000 + 8,65,000
Total	11,85,000				= 11,85,000

Transaction (vii) It affects Debtors and Inventory on the assets side and capital on the other side. There is increase in debtors by ₹ 1,25,000 and decrease in Inventory of goods by ₹ 80,000 on the assets side of the equation. Capital increases by Rs.45,000.

Assets						= Liabilities + Capital
Cash	+ Inventory	+ Plant and Machinery		+ Bank	+ Furniture + Debtors	
1,65,000	+ 1,20,000	+ 3,00,000	+ 5,00,000	+ 1,00,000		
	(80,000)				+ 1,25,000	
1,65,000	+ 40,000	+ 3,00,000	+ 5,00,000	+ 1,00,000	+ 1,25,000	
					= 3,20,000 + 8,65,000	
					= 45,000	
					= 3,20,000 + 9,10,000	
Total	12,30,000				= 12,30,000	

Transaction (viii) It affects Bank on the assets side on one side and liability on the other side. There is decrease in bank by ₹ 35,000 on the assets side and liability also decreases by ₹ 35,000.

Assets						=Liabilities + Capital								
Cash	+Inventory	+Plant and Machinery	+ Bank	+Furniture	+ Debtors									
1,65,000	+	40,000	+	3,00,000	+	5,00,000	+	1,00,000	+	1,25,000	=	3,20,000	+	9,10,000
						(35,000)					=	(35,000)		
1,65,000	+	40,000	+	3,00,000	+	4,65,000	+	1,00,000	+	1,25,000	=	2,85,000	+	9,10,000
Total		11,95,000										=		11,95,000

Transaction (ix) It affects assets side only. The composition of the assets side changes. Bank increases by ₹ 75,000 and by the same amount Debtors decreases.

Assets						=Liabilities + Capital								
Cash	+Inventory	+Plant and Machinery	+ Bank	+Furniture	+ Debtors									
1,65,000	+	40,000	+	3,00,000	+	4,65,000	+	1,00,000	+	1,25,000	=	2,85,000	+	9,10,000
						+ 75,000					=	(75,000)		
1,65,000	+	40,000	+	3,00,000	+	5,40,000	+	1,00,000	+	50,000	=	2,85,000	+	9,10,000
Total		11,95,000										=		11,95,000

Transaction (x) It affects Cash on the asset side and Capital on the other hand. There is decrease in Cash by ₹ 25,000 on the assets side whereas capital decreases by ₹ 25,000.

Assets						=Liabilities + Capital								
Cash	+Inventory	+Plant and Machinery	+ Bank	+Furniture	+ Debtors									
1,65,000	+	40,000	+	3,00,000	+	5,40,000	+	1,00,000	+	50,000	=	2,85,000	+	9,10,000
(25,000)											=			(25,000)
1,40,000	+	40,000	+	3,00,000	+	5,40,000	+	1,00,000	+	50,000	=	2,85,000	+	8,85,000
Total		11,95,000										=		11,95,000

3.4 Books of Original Entry

In the preceding pages, you learnt about debits and credits and observed how transactions affect accounts. This process of analysing transactions and recording their effects directly in the accounts is helpful as a learning exercise. However, real accounting systems do not record transactions directly in the accounts. The book in which the transaction is recorded for the first time is called journal or book of original entry. The source document, as discussed earlier, is required to record the transaction in the journal. This practice provides a complete record of each transaction in one place and links the debits and credits for each transaction. After the debits and credits for each transaction are entered in the journal, they are transferred to the individual accounts. The process of recording transactions in journal is called journalising. Once the *journalising* process is completed, the journal entry provides

a complete and useful description of the event's effect on the organisation. The process of transferring journal entry to individual accounts is called *posting*. This sequence causes the journal to be called the *Book of Original Entry* and the ledger account as the *Principal Book* of entry. In this context, it should be noted that on account of the number and commonality of most transactions, the journal is subdivided into a number of books of original entry as follows:

- (a) Journal Proper
- (b) Cash book
- (c) Other day books:
 - (i) Purchases (journal) book
 - (ii) Sales (journal) book
 - (iii) Purchase Returns (journal) book
 - (iv) Sale Returns (journal) book
 - (v) Bills Receivable (journal) book
 - (vi) Bills Payable (journal) book

In this chapter you will learn about the process of journalising and their posting into ledger. The cash book and other day books are dealt in detail in chapter 4.

3.4.1 Journal

This is the basic book of original entry. In this book, transactions are recorded in the chronological order, as and when they take place. Afterwards, transactions from this book are posted to the respective accounts. Each transaction is separately recorded after determining the particular account to be debited or credited. The format of Journal is shown in figure 3.5

Journal				
<i>Date</i>	<i>Particulars</i>	<i>L.F.</i>	<i>Debit Amount ₹</i>	<i>Credit Amount ₹</i>

Fig. 3.5 : Showing the format of journal

The first column in a journal is *Date* on which the transaction took place. In the *Particulars* column, the account title to be debited is written on the first line beginning from the left hand corner and the word 'Dr.' is written at the end of the column. The account title to be credited is written on the second line leaving sufficient margin on the left side with a prefix 'To'. Below the account titles, a

brief description of the transaction is given which is called *Narration*. Having written the *Narration* a line is drawn in the Particulars column, which indicates the end of recording the specific journal entry. The column relating to *Ledger Folio* records the page number of the ledger book on which relevant account is appears. This column is filled up at the time of posting and *not* at the time of making journal entry.

The *Debit amount* column records the amount against the account to be debited and similarly the *Credit Amount* column records the amount against the account to be credited. It may be noted that, the number of transactions is very large and these are recorded in number of pages in the journal book. Hence, at the end of each page of the journal book, the amount columns are totaled and carried forward (c/f) to the next page where such amounts are recorded as brought forward (b/f) balances.

The journal entry is the basic record of a business transaction. It may be simple or compound. When only two accounts are involved to record a transaction, it is called a simple journal entry.

For Example, Goods Purchased on credit for Rs.30,000 from M/s Govind Traders on December 24, 2017, involves only two accounts: (a) Purchases A/c (Goods), (b) Govind Traders A/c (Creditors). This transaction is recorded in the journal as follows :

Journal

Date	Particulars	L.F.	Debit Amount ₹	Credit Amount ₹
2014 Dec.24	Purchases A/c Dr. To Govind Traders A/c (Purchase of goods- in-trade from Govind Traders)		30,000	30,000

It will be noticed that although the transaction results in an increase in stock of goods, the account debited is purchases, not goods. In fact, the goods account is divided into five accounts, viz. purchases account, sales account, purchases returns account, sales returns account, and stock account. When the number of accounts to be debited or credited is more than one, entry made for recording the transaction is called *compound* journal entry. That means compound journal entry involves multiple accounts. For example, Office furniture is purchased from Modern Furniture's on July 4, 2017 for ₹ 25,000 and ₹ 5,000 is paid by cash immediately and balance of ₹ 20,000 is still payable. It increases furniture (assets) by ₹ 25,000, decreases cash (assets) by ₹ 5,000 and increases liability by ₹ 20,000. The entry made in the journal on July 4, 2017 is :

Journal

<i>Date</i>	<i>Particulars</i>	<i>L.F.</i>	<i>Debit Amount ₹</i>	<i>Credit Amount ₹</i>
2017 July 4	Office Furniture A/c Dr. To Cash A/c To Modern Furniture A/c (Purchase of office furniture from Modern Furnitures)		25,000	5,000 20,000

Now refer to example 1 on page 46 again and observe how the transactions listed are recorded in the journal:

**Books of Rohit
Journal**

<i>Date</i>	<i>Particulars</i>	<i>L.F.</i>	<i>Debit Amount ₹</i>	<i>Credit Amount ₹</i>
	Cash A/c Dr. To Capital A/c (Business started with cash)		5,00,000	5,00,000
	Bank A/c Dr. To Cash A/c (Opened bank account with State Bank of India)		4,80,000	4,80,000
	Furniture A/c Dr. To Bank A/c (Purchased furniture and made payment through bank)		60,000	60,000
	Plant and Machinery A/c Dr. To Cash A/c To Ramjee Lal (Bought Plant and Machinery from M/s Ramjee Lal, made an advance payment by cash for ₹ 10,000 and balance at the later date)		1,25,000	10,000 1,15,000
	Purchases A/c Dr. To M/s Sumit Traders A/c (Goods bought on credit)		55,000	55,000
	Rajani Enterprises A/c Dr. To Sales A/c (Goods sold on profit)		35,000	35,000
	Total		12,55,000	12,55,000

Illustration 2.

Soraj Mart furnishes the following information :

Transactions during the month of April, 2017 are as under :

<i>Date</i>	<i>Details</i>
01.4.2017	Business started with cash ₹ 1,50,000.
01.4.2017	Goods purchased from Manisha ₹ 36,000.
01.4.2017	Stationery purchased for cash ₹ 2,200.
02.4.2017	Open a bank account with SBI for ₹ 35,000.
02.4.2017	Goods sold to Priya for ₹ 16,000.
03.4.2017	Received a cheque of ₹ 16,000 from Priya.
05.4.2017	Sold goods to Nidhi ₹ 14,000.
08.4.2017	Nidhi pays ₹ 14,000 cash.
10.4.2017	Purchased goods for ₹ 20,000 on credit from Ritu.
14.4.2017	Insurance paid by cheque ₹ 6,000.
18.4.2017	Paid rent ₹ 2,000.
20.4.2017	Goods costing ₹ 1,500 given as charity.
24.4.2017	Purchased office furniture for ₹ 11,200.
29.4.2017	Cash withdrawn for household purposes ₹ 5000.
30.4.2017	Interest received cash ₹ 1,200.
30.4.2017	Cash sales ₹ 2,300.
30.4.2017	Commission paid ₹ 3,000 by cheque.
30.4.2017	Telephone bill paid by cheque ₹ 2,000.
30.4.2017	Payment of salaries in cash ₹ 12,000.

Journalise the transactions.

(ix)	Output CGST A/c Dr. Output SGST A/c To Electronic Cash Ledger A/c (Being final payment made)		1,800 28,800	30,600

Working Notes :

Calculation Sheet

Particulars	CGST	SGST	IGST
Output liability	36,000	36,000	36,000
Loss : Input tax Credit			
CGST	7,200		
SGST		7,200	
IGST	27,000		36,000
Amount Payable	1,800	28,800	NIL

- Any IGST credit will first be applied to set off IGST and then CGST. Balance, if any, will be applied to set off SGST.

3.5 The Ledger

The ledger is the principal book of accounting system. It contains different accounts where transactions relating to that account are recorded. A ledger is the collection of all the accounts, debited or credited, in the journal proper and various special journal (about which you will learn in chapter 4). A ledger may be in the form of bound register, or cards, or separate sheets may be maintained in a loose leaf binder. In the ledger, each account is opened preferably on separate page or card.

Utility

A ledger is very useful and is of utmost importance in the organisation. The net result of all transactions in respect of a particular account on a given date can be ascertained only from the ledger. For example, the management on a particular date wants to know the amount due from a certain customer or the amount the firm has to pay to a particular supplier, such information can be found only in the ledger. Such information is very difficult to ascertain from the journal because the transactions are recorded in the chronological order and defies classification. For easy posting and location, accounts are opened in the ledger in some definite order. For example, they may be opened in the same order as they appear in the profit and loss account and in balance sheet. In the beginning, an index is also provided. For easy identification, in big organisations, each account is also allotted a code number.

Format of the account is shown in figure 3.6.

Name of the Account							
Dr.				Cr.			
Date	Particulars	J.F.	Amount ₹	Date	Particulars	J.F.	Amount ₹

Fig. 3.6 : Showing format of a ledger

According to this format the columns will contain the information as given below:

An account is debited or credited according to the rules of debit and credit already explained in respect of each category of account.

Title of the account : The Name of the item is written at the top of the format as the title of the account. The title of the account ends with suffix 'Account'.

Dr./Cr. : Dr. means Debit side of the account that is left side and Cr. means Credit side of the account, i.e. right side.

Date : Year, Month and Date of transactions are posted in chronological order in this column.

Particulars : Name of the item with reference to the original book of entry is written on debit/credit side of the account.

Journal Folio : It records the page number of the original book of entry on which relevant transaction is recorded. This column is filled up at the time of posting.

Amount : This column records the amount in numerical figure, corresponding to what has been entered in the amount column of the original book of entry.

Test Your Understanding - III

Choose the Correct Answer :

- The ledger folio column of journal is used to:
 - Record the date on which amount posted to a ledger account.
 - Record the number of ledger account to which information is posted.
 - Record the number of amounts posted to the ledger account.
 - Record the page number of the ledger account.
- The journal entry to record the sale of services on credit should include:
 - Debit to debtors and credit to capital.
 - Debit to cash and Credit to debtors.
 - Debit to fees income and Credit to debtors.
 - Debit to debtors and Credit to fees income.
- The journal entry to record purchase of equipment for ₹ 2,00,000 cash and a balance of ₹ 8,00,000 due in 30 days include:
 - Debit equipment for ₹ 2,00,000 and Credit cash ₹ 2,00,000.

- (b) Debit equipment for ₹ 10,00,000 and Credit cash ₹ 2,00,000 and creditors ₹ 8,00,000.
 - (c) Debit equipment ₹ 2,00,000 and Credit debtors ₹ 8,00,000.
 - (d) Debit equipment ₹ 10,00,000 and Credit cash ₹ 10,00,000.
4. When an entry is made in journal:
- (a) Assets are listed first.
 - (b) Accounts to be debited listed first.
 - (c) Accounts to be credited listed first.
 - (d) Accounts may be listed in any order.
5. If a transaction is properly analysed and recorded:
- (a) Only two accounts will be used to record the transaction.
 - (b) One account will be used to record transaction.
 - (c) One account balance will increase and another will decrease.
 - (d) Total amount debited will equals total amount credited.
6. The journal entry to record payment of monthly bill will include:
- (a) Debit monthly bill and Credit capital.
 - (b) Debit capital and Credit cash.
 - (c) Debit monthly bill and Credit cash.
 - (d) Debit monthly bill and Credit creditors.
7. Journal entry to record salaries will include:
- (a) Debit salaries Credit cash.
 - (b) Debit capital Credit cash.
 - (c) Debit cash Credit salary.
 - (d) Debit salary Credit creditors.

Distinction between Journal and Ledger

The Journal and the Ledger are the most important books of the double entry mechanism of accounting and are indispensable for an accounting system.

Following points of comparison are worth noting :

1. The Journal is the book of *first* entry (original entry); the ledger is the book of *second* entry.
2. The Journal is the book for *chronological* record; the ledger is the book for *analytical* record.
3. The Journal, as a book of source entry, gets greater importance as *legal evidence* than the ledger.
4. *Transaction* is the basis of classification of data within the Journal; *Account* is the basis of classification of data within the ledger.
5. Process of recording in the Journal is called *Journalising*; the process of recording in the ledger is known as *Posting*.

3.5.1 Classification of Ledger Accounts

We have seen earlier that all ledger accounts are put into five categories namely, assets, liabilities, capital, revenues/gains and expense losses. All these accounts may further be put into two groups, i.e. permanent accounts and temporary accounts. All permanent accounts are balanced and carried forward to the next accounting period. The temporary accounts are closed at the end of the accounting period by transferring them to the trading and profit and loss account. All permanent accounts appears in the balance sheet. Thus, all assets, liabilities and capital accounts are permanent accounts and all revenue and expense accounts are temporary accounts. This classification is also relevant for preparing the financial statements.

3.6 Posting from Journal

Posting is the process of transferring the entries from the books of original entry (journal) to the ledger. In other words, posting means grouping of all the transactions in respect to a particular account at one place for meaningful conclusion and to further the accounting process. Posting from the journal is done periodically, may be, weekly or fortnightly or monthly as per the requirements and convenience of the business.

The complete process of posting from journal to ledger has been discussed below:

Step 1 : Locate in the ledger, the account to be debited as entered in the journal.

Step 2 : Enter the date of transaction in the date column on the debit side.

Step 3 : In the 'Particulars' column write the name of the account through which it has been debited in the journal. For example, furniture sold for cash ₹ 34,000. Now, in cash account on the debit side in the particulars column 'Furniture' will be entered signifying that cash is received from the sale of furniture. In Furniture account, in the ledger on the credit side is the particulars column, the word, cash will be recorded. The same procedure is followed in respect of all the entries recorded in the journal.

Step 4 : Enter the page number of the journal in the folio column and in the journal write the page number of the ledger on which a particular account appears.

Step 5 : Enter the relevant amount in the amount column on the debit side.

It may be noted that the same procedure is followed for making the entry on the credit side of that account to be credited. An account is opened only once in the ledger and all entries relating to a particular account is posted on the debit or credit side, as the case may be.

We will now see how the transactions listed in example on *page 46-47* are posted to different accounts from the journal.

Test Your Understanding - V

Select Right Answer:

1. Voucher is prepared for:
 - (i) Cash received and paid
 - (ii) Cash/Credit sales
 - (iii) Cash/Credit purchase
 - (iv) All of the above
2. Voucher is prepared from:
 - (i) Documentary evidence
 - (ii) Journal entry
 - (iii) Ledger account
 - (iv) All of the above
3. How many sides does an account have?
 - (i) Two
 - (ii) Three
 - (iii) one
 - (iv) None of These
4. A purchase of machine for cash should be debited to:
 - (i) Cash account
 - (ii) Machine account
 - (iii) Purchase account
 - (iv) None of these
5. Which of the following is correct?
 - (i) Liabilities = Assets + Capital
 - (ii) Assets = Liabilities - Capital
 - (iii) Capital = Assets - Liabilities
 - (iv) Capital = Assets + Liabilities.
6. Cash withdrawn by the Proprietor should be credited to:
 - (i) Drawings account
 - (ii) Capital account
 - (iii) Profit and loss account
 - (iv) Cash account
7. Find the correct statement:
 - (i) Credit a decrease in assets
 - (ii) Credit the increase in expenses
 - (iii) Debit the increase in revenue
 - (iv) Credit the increase in capital
8. The book in which all accounts are maintained is known as:
 - (i) Cash Book
 - (ii) Journal
 - (iii) Purchases Book
 - (iv) Ledger
9. Recording of transaction in the Journal is called:
 - (i) Casting
 - (ii) Posting
 - (iii) Journalising
 - (iv) Recording

Key Terms Introduced in the Chapter

- Source Documents
- Accounting Equation
- Books of Original Entry
- Journalising and Posting
- Double Entry Book Keeping
- Credit
- Debit
- Account
- Ledger
- Journal

Summary with Reference to Learning Objectives

1. *Meaning of source documents* : Various business documents such as invoice, bills, cash memos, vouchers, which form the basis and evidence of a business transaction recorded in the books of account, are called source documents.
2. *Meaning of accounting equation* : A statement of equality between debits and credits signifying that the assets of a business are always equal to the total liabilities and capital.
3. *Rules of debit and credit* : An account is divided into two sides. The left side of an account is known as debit and the credit. The rules of debit and credit depend on the nature of an account. Debit and Credit both represent either increase or decrease, depending on the nature of an account. These rules are summarised as follows :

<i>Name of an account</i>	<i>Debit</i>	<i>Credit</i>
Assets	Increase	Decrease
Liabilities	Decrease	Increase
Capital	Decrease	Increase
Revenues	Decrease	Increase
Expenses	increase	Decrease

4. *Books of Original entry* : The transactions are first recorded in these books in a chronological order. Journal is one of the books of original entry. The process of recording entries in the journal is called *journalising*.
5. *Ledger* : A book containing all accounts to which entries are transferred from the books of original entry. *Posting* is process of transferring entries from books of original entry to the ledger.

Questions for Practice**Short Answers**

1. State the three fundamental steps in the accounting process.
2. Why is the evidence provided by source documents important to accounting?
3. Should a transaction be first recorded in a journal or ledger? Why?
4. Are debits or credits listed first in journal entries? Are debits or credits indented?
5. Why are some accounting systems called double accounting systems?
6. Give a specimen of an account.

7. Why are the rules of debit and credit same for both liability and capital?
8. What is the purpose of posting J.F numbers that are entered in the journal at the time entries are posted to the accounts.
9. What entry (debit or credit) would you make to: (a) increase revenue (b) decrease in expense, (c) record drawings (d) record the fresh capital introduced by the owner.
10. If a transaction has the effect of decreasing an asset, is the decrease recorded as a debit or as a credit? If the transaction has the effect of decreasing a liability, is the decrease recorded as a debit or as a credit?

Long Answers

1. Describe the events recorded in accounting systems and the importance of source documents in those systems?
2. Describe how debits and credits are used to analyse transactions.
3. Describe how accounts are used to record information about the effects of transactions?
4. What is a journal? Give a specimen of journal showing at least five entries.
5. Differentiate between source documents and vouchers.
6. Accounting equation remains intact under all circumstances. Justify the statement with the help of an example.
7. Explain the double entry mechanism with an illustrative example.

Numerical Questions

Analysis of Transactions

1. Prepare accounting equation on the basis of the following :
 - (a) Harsha started business with cash
₹2,00,000
 - (b) Purchased goods from Naman for cash
₹ 40,000
 - (c) Sold goods to Bhanu costing ₹10,000/-
₹ 12,000
 - (d) Bought furniture on credit
₹ 7,000

(Ans: Asset = cash ₹ 1,60,000 + Goods ₹ 30,000 + Debtors ₹ 12,000 + Furniture ₹ 7,000 = ₹ 2,09,000; Liabilities = Creditors ₹ 7,000 + Capital ₹ 2,02,000 = ₹ 2,09,000)
2. Prepare accounting equation from the following:
 - (a) Kunal started business with cash
₹2,50,000
 - (b) He purchased furniture for cash
₹ 35,000
 - (c) He paid commission
₹ 2,000

- (d) He purchases goods on credit ₹ 40,000
 (e) He sold goods (Costing ₹20,000) for cash ₹ 26,000

(Ans: Asset = Cash ₹ 2,39,000 + Furniture ₹ 35,000 + Goods ₹ 20,000 = ₹ 2,94,000; Liabilities = Creditors ₹ 40,000 + Capital ₹ 2,54,000 = ₹ 2,94,000)

3. Mohit has the following transactions, prepare accounting equation:

- (a) Business started with cash ₹ 1,75,000
 (b) Purchased goods from Rohit ₹ 50,000
 (c) Sales goods on credit to Manish (Costing ₹ 17,500) ₹ 20,000
 (d) Purchased furniture for office use ₹ 10,000
 (e) Cash paid to Rohit in full settlement ₹ 48,500
 (f) Cash received from Manish ₹ 20,000
 (g) Rent paid ₹ 1,000
 (h) Cash withdrew for personal use ₹ 3,000

(Ans: Cash ₹ 1,32,500 + Goods ₹ 32,500 + Furniture ₹ 10,000 = ₹ 1,75,000; Liabilities = Capital ₹ 1,75,000)

4. Rohit has the following transactions :

- (a) Commenced business with cash ₹1,50,000
 (b) Purchased machinery on credit ₹ 40,000
 (c) Purchased goods for cash ₹ 20,000
 (d) Purchased car for personal use ₹ 80,000
 (e) Paid to creditors in full settlement ₹ 38,000
 (f) Sold goods for cash costing ₹ 5,000 ₹ 4,500
 (g) Paid rent ₹ 1,000
 (h) Commission received in advance ₹ 2,000

Prepare the Accounting Equation to show the effect of the above transactions on the assets, liabilities and capital.

(Ans: Assets = Cash ₹ 17,500 + Machine ₹ 40,000 + Goods ₹ 15,000 = ₹ 72,500; Liabilities = Commission ₹ 2,000 + Capital ₹ 70,500 = ₹ 72,500)

5. Use accounting equation to show the effect of the following transactions of M/s Royal Traders:

- (a) Started business with cash ₹1,20,000
 (b) Purchased goods for cash ₹ 10,000
 (c) Rent received ₹ 5,000
 (d) Salary outstanding ₹ 2,000
 (e) Prepaid Insurance ₹ 1,000
 (f) Received interest ₹ 700

- (g) Sold goods for cash (Costing ₹ 5,000) ₹ 7,000
 (h) Goods destroyed by fire ₹ 500

(Ans: Assets = Cash ₹ 1,21,200 + Goods ₹ 4,500 + Prepaid insurance ₹ 1,000; Liabilities = Outstanding salary ₹ 2,000 + Capital ₹ 1,25,200)

6. Show the accounting equation on the basis of the following transaction:

(a) Udit started business with:

- (i) Cash ₹ 5,00,000
 (ii) Goods ₹ 1,00,000
 (b) Purchased building for cash ₹ 2,00,000
 (c) Purchased goods from Himani ₹ 50,000
 (d) Sold goods to Ashu (Cost ₹ 25,000) ₹ 36,000
 (e) Paid insurance premium ₹ 3,000
 (f) Rent outstanding ₹ 5,000
 (g) Depreciation on building ₹ 8,000
 (h) Cash withdrawn for personal use ₹ 20,000
 (i) Rent received in advance ₹ 5,000
 (j) Cash paid to himani on account ₹ 20,000
 (k) Cash received from Ashu ₹ 30,000

(Ans : Assets = Cash ₹ 2,92,000 + Goods ₹ 1,25,000 + Building ₹ 1,92,000 + Debtors ₹ 6,000 = ₹ 6,15,000; Liabilities = Creditors ₹ 30,000 + Outstanding Rent ₹ 5,000 + Accounts receivable ₹ 5,000 + Capital ₹ 5,75,000 = ₹ 6,15,000)

7. Show the effect of the following transactions on Assets, Liabilities and Capital through accounting equation:

- (a) Started business with cash ₹ 1,20,000
 (b) Rent received ₹ 10,000
 (c) Invested in shares ₹ 50,000
 (d) Received dividend ₹ 5,000
 (e) Purchase goods on credit from Ragani ₹ 35,000
 (f) Paid cash for house hold Expenses ₹ 7,000
 (g) Sold goods for cash (costing ₹10,000) ₹ 14,000
 (h) Cash paid to Ragani ₹ 35,000
 (i) Deposited into bank ₹ 20,000

(Ans: Assets = Cash ₹ 37,000 + Shares ₹ 50,000 + Goods ₹ 25,000 + Bank ₹ 20,000 = ₹ 1,32,000; Liabilities = Capital ₹ 1,32,000)

8. Show the effect of following transaction on the accounting equation:

(a) Manoj started business with

- (i) Cash ₹ 2,30,000
 (ii) Goods ₹ 1,00,000
 (iii) Building ₹ 2,00,000

(b) He purchased goods for cash	₹ 50,000
(c) He sold goods (costing ₹20,000)	₹ 35,000
(d) He purchased goods from Rahul	₹ 55,000
(e) He sold goods to Varun (Costing ₹ 52,000)	₹ 60,000
(f) He paid cash to Rahul in full settlement	₹ 53,000
(g) Salary paid by him	₹ 20,000
(h) Received cash from Varun in full settlement	₹ 59,000
(i) Rent outstanding	₹ 3,000
(j) Prepaid Insurance	₹ 2,000
(k) Commission received by him	₹ 13,000
(l) Amount withdrawn by him for personal use	₹ 20,000
(m) Depreciation charge on building	₹ 10,000
(n) Fresh capital invested	₹ 50,000
(o) Purchased goods from Rakhi	₹ 10,000

(Ans: Assets = Cash ₹ 2,42,000 + Goods ₹ 1,43,000 + Building ₹1,90,000 + Prepaid Insurance ₹ 2,000 = ₹ 5,77,000; Liabilities = Outstanding Rent ₹ 3,000 + Creditor ₹ 10,000 + Capital ₹ 5,64,000 = ₹ 5,77,000)

9. Transactions of M/s Vipin Traders are given below.

Show the effects on Assets, Liabilities and Capital with the help of accounting Equation.

(a) Business started with cash	₹ 1,25,000
(b) Purchased goods for cash	₹ 50,000
(c) Purchase furniture from R.K. Furniture	₹ 10,000
(d) Sold goods to Parul Traders (Costing ₹ 7,000 vide bill no. 5674)	₹ 9,000
(e) Paid cartage	₹ 100
(f) Cash Paid to R.K. furniture in full settlement	₹ 9,700
(g) Cash sales (costing ₹10,000)	₹ 12,000
(h) Rent received	₹ 4,000
(i) Cash withdrew for personal use	₹ 3,000

(Ans: Asset = cash ₹ 78,200 + Goods ₹ 33,000 + Furniture ₹ 10,000 Debtors ₹ 9,000 = ₹ 1,30,200; Liabilities = Capital ₹ 1,30,200)

10. Bobby opened a consulting firm and completed these transactions during November, 2017:

- Invested ₹ 4,00,000 cash and office equipment with ₹ 1,50,000 in a business called Bobbie Consulting.
- Purchased land and a small office building. The land was worth ₹ 1,50,000 and the building worth ₹ 3, 50,000. The purchase price was

paid with ₹ 2,00,000 cash and a long term note payable for ₹ 3,00,000.

- (c) Purchased office supplies on credit for ₹ 12,000.
- (d) Bobbie transferred title of motor car to the business. The motor car was worth ₹ 90,000.
- (e) Purchased for ₹ 30,000 additional office equipment on credit.
- (f) Paid ₹ 75,00 salary to the office manager.
- (g) Provided services to a client and collected ₹ 30,000
- (h) Paid ₹ 4,000 for the month's utilities.
- (i) Paid supplier created in transaction c.
- (j) Purchase new office equipment by paying ₹ 93,000 cash and trading in old equipment with a recorded cost of ₹ 7,000.
- (k) Completed services of a client for ₹ 26,000. This amount is to be paid within 30 days.
- (l) Received ₹ 19,000 payment from the client created in transaction k.
- (m) Bobby withdrew ₹ 20,000 from the business.

Analyse the above stated transactions and open the following **T**-accounts: Cash, client, office supplies, motor car, building, land, long term payables, capital, withdrawals, salary, expense and utilities expense.

Journalising

11. Journalise the following transactions in the books of Himanshu:
