

Lines and Lines

Whose Line is It?

Today, there is a cricket match in Fatima's school. Fatima, Jasbir and Raima have each brought their own stump from home.

They keep these in a corner of the room.

Fatima keeps her stump in **standing** position.

Jasbir keeps his stump in **slanting** position.

Raima keeps her stump in **sleeping** position.

Fatima

Jasbir

Raima

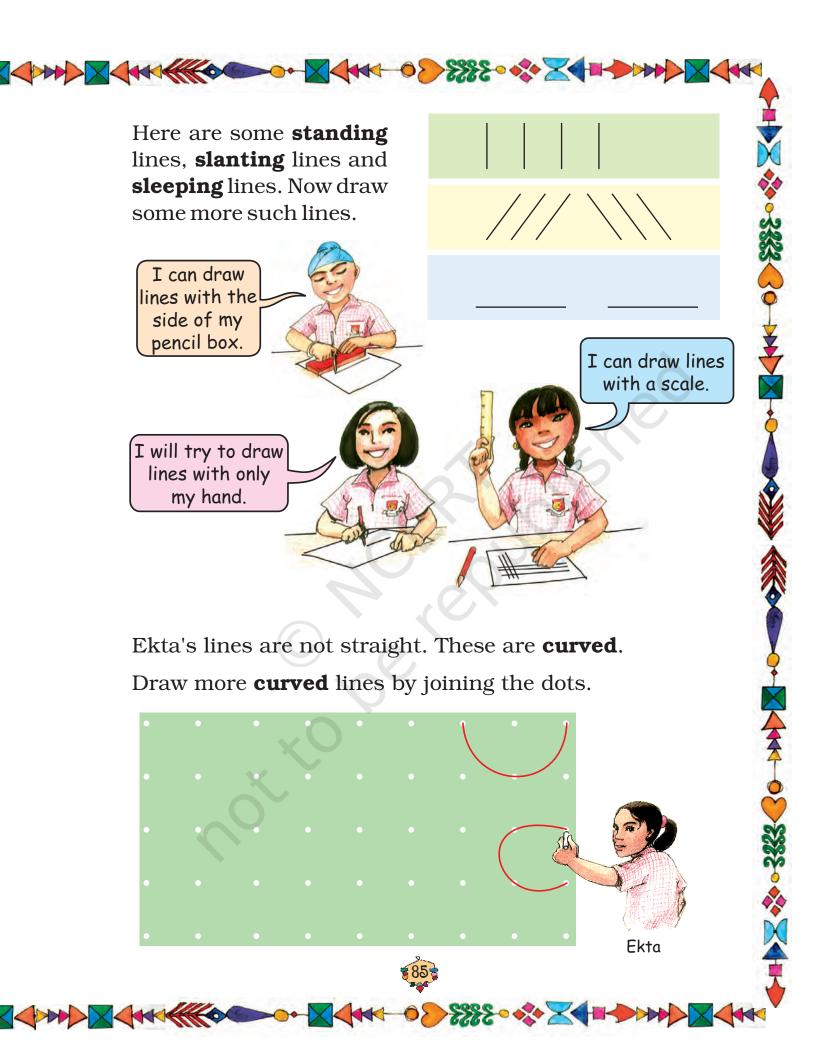

To show others how they have kept their stumps, they draw lines in a notebook.

Fatima draws a standing line.

Jasbir draws a **slanting** line.

Raima draws a **sleeping** line.

Match the picture of each child with the correct line.

Fun with Lines

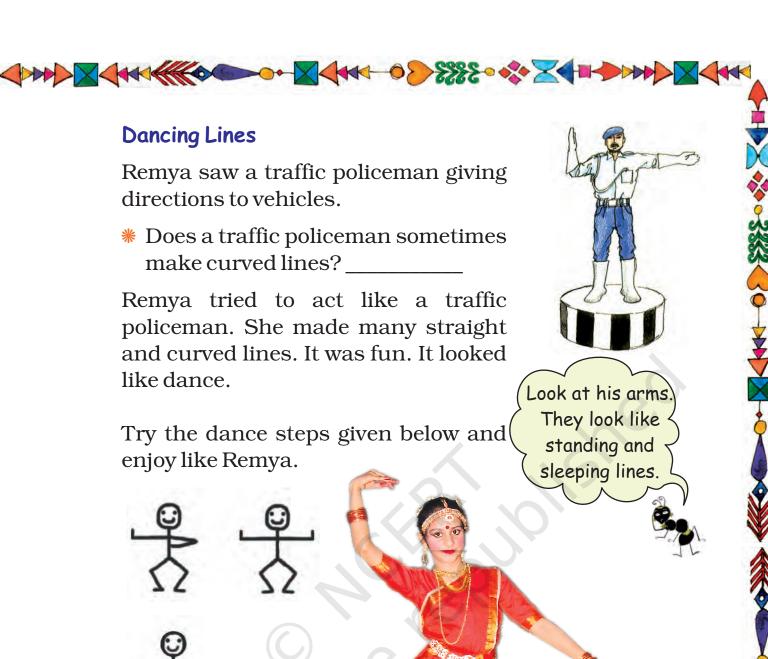

Jigyasa has a clock. She can read the time written in numbers and also the day of the week. The numbers and letters are made with straight lines.

Jigyasa made more numbers and letters with used matchsticks.

- Collect used matchsticks. Have fun making numbers and letters with these.
- * Is there any number or letter that you cannot make with matchsticks?
- * Now write some numbers using straight lines.
- * What about writing letters using straight lines? Which ones are easy?
- * Find out where else numbers and letters are written with straight lines.

Several classical dance forms such as Bharatanatyam and Odissi use geometrical movements. Children can be encouraged to look for different lines or shapes in pictures or T.V. programmes.

Designs with Dots

* Join the dots with curved or straight lines.

Make your own designs.

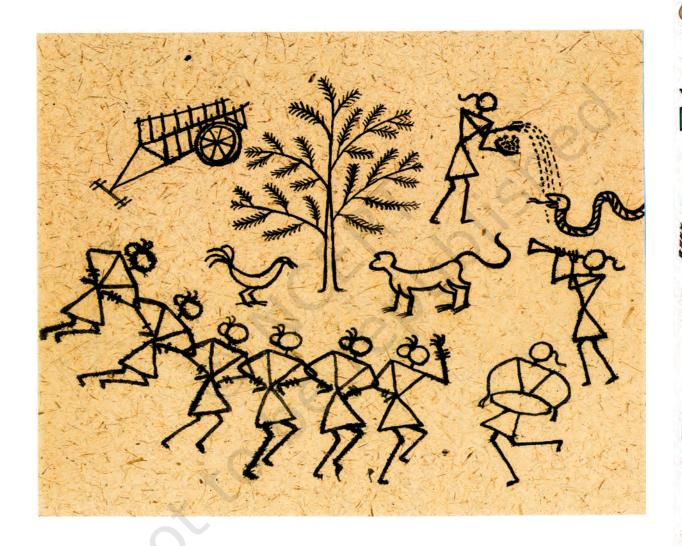

Lines in Pictures

Nancy saw these pictures made by folk artists.

* Look for different types of lines — curved, standing, slanting and sleeping.

* Draw some more pictures like these.
