

Chemistry

Q 1. Complete the flow chart by filling gaps:

Q 2. Chemical symbol word search:

Search the puzzle to find the chemical symbols for the selected elements listed below. Place each symbol beside its element as you find it in the puzzle. Each symbol begins with a capital letter & ends with a small letter where there is no second letter in the chemical symbol, only the capital letter is used. Circle the answers in the words search. The first one is done for you.
