

Unit. 9 - Area and Perimeter

Fill in the blanks

1. _____ is the distance around the edge of a figure.
2. _____ is the amount of surface a figure covers.
3. Perimeter of a rectangle = $2 \times (\text{_____} + \text{_____})$
4. Perimeter of a square = $4 \times \text{_____}$
5. Area of a rectangle = _____ \times _____
6. Area of a square = _____ \times _____
7. Length of the rectangle = $\text{Area} \div \text{_____}$
8. Breadth of the rectangle = _____ \div Length
9. _____ is always measured in square units.
10. A square with 1 cm sides is a _____
11. A _____ with 1 metre sides is a square metre.
12. A square with _____ sides is a square kilometre.
13. Side of a square = $\text{Perimeter} \div \text{_____}$

14. Perimeter of a square having side 1 cm is _____

15. Area of a square having side 1 cm is _____

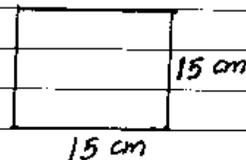

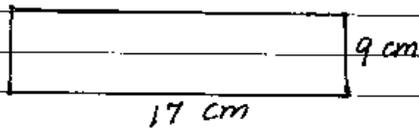

16. Perimeter of a square having side 3 cm is _____

17. Area of a square having side 2 m is _____

18. Area of rectangle whose length is 3 cm and breadth is 2 cm is _____

II. Do the following

1. Find the perimeter of the following figures by using the formula.

2. Find the perimeter of the rectangles whose sides are given below.

a. length = 85 cm breadth = 14 cm

b. length = 150 cm breadth = 100 cm

c. length = 7 m breadth = 12 m

3 Find the side of the rectangles with the given measures.

a) Area = 96 sq. cm, length = 12 cm
Breadth = ?

b) Area = 72 sq. cm, breadth = 8 cm
Length =

c) Area = 805 sq. m, length = 35 m
Breadth = ?

d) Area = 156 sq. cm, breadth = 12 cm
Length = ?

III Do as directed.

1. A square field has a perimeter of 580 m. What is its area?

2. Sapna jogs around a square park whose side is 60 m. One day she jogged around the park 6 times. How much did she jog in all?

3. Raj has a rectangular backyard that is 54 m wide and 63 m long. How much fencing will he need to enclose the yard? IF fencing costs ₹ 85 per metre, how much will he have to pay?

4. A square picture has a frame of 500 cm. What is the length of each side?

3. Find the area of the rectangles whose sides are given below.

a length = 24 cm breadth = 9 cm

b length = 15 cm breadth = 12 cm

c length = 50 m breadth = 30 m

4. Find the area and perimeter of the squares with the following sides.

a) 72 cm b) 65 m c) 43 cm

d) 25 cm e) 30 m f) 92 cm

5. Find the side of these squares with the given perimeter.

a perimeter = 248 cm

b Perimeter = 616 cm

c Perimeter = 440 m

6. Find the area of the following figures.
