Foreword to the Revised Edition

"You are the makers of your own fortunes. You make yourselves suffer, you make good and evil, and it is you who put your hands before your eyes and say it is dark. Take your hands away and see the light."

– Swami Vivekanand

The CBSE's Entrepreneurship curriculum for classes XI and XII, stands out for its strong dynamism, continuous evolution and development. Since 2001, the curriculum has been changed by adopting the functional approach. In the current climate of psychological, social and economic changes, society is influenced by explosive knowledge creation and exponential technology growth. Thus the need to modify and infuse changes in the Entrepreneurship Curriculum at +2 level is a necessary step in the upgradation and updation of the existing curriculum.

The course aims at providing the basic concepts of entrepreneurship, thereby equipping the students with entrepreneurial values, attitudes, motivation and competencies so that they can pursue a career that also calls for creativity and innovation. To accelerate the pace of development of our economy, we need, more entrepreneurs who generate wealth and job opportunities for the country. Infact the entire world needs 'job providers'.

The increasing use of the internet also impacts on our objectives to give our learners a greater autonomy in their learning and enabling differentiated instruction, and, its transformational impact on the teaching methods and deployment of assessment tools, consistent with those objectives. At +2 level, students begin to contemplate and introspect on their choice of subjects for higher studies. For some students, this stage may be the end of their formal education, leading to the world of work and employment; for others, the foundation for higher education. They may choose either a specialized academic course or job-oriented vocational courses. Entrepreneurship would equip them with the necessary skills to make a meaningful contribution towards their personal and professional growth in future.

The revised edition of Entrepreneurship incorporates new chapters that introduce students to market dynamics and encourage their hidden entrepreneurial skills. The revision aims at providing some background information, case studies, activities, new templates and basic concepts to help the students attain a better understanding of higher-order concepts that are being dealt with in greater detail in the curriculum of class XII.

Teachers handling the course need to inform themselves regarding the effective use of course content, teaching methodology, management of group work and independent individual work, management of large classes, appropriate use of assessment tools, grading and record-keeping to benefit their students.

The revision of this book would never have been possible but for the sincere effort, devotion and leadership of Dr. Sadhana Parashar, Professor & Director [Academics, Research, Training & Innovation], CBSE and Mr. Sandeep Sethi, Education Officer with his team. Any further suggestions are welcome and will be incorporated in the future editions.
